

Azafady Conservation Programme: 2011 Timetable

The Azafady Conservation Programme is designed as a **10-week programme** starting at the beginning of January, April, July and October each year, but is split into **two-week modules**; allowing those of you with time constraints to still make a valuable contribution to our long-term conservation work. Volunteers can join for **2, 4, 6, 8 or 10 weeks** according to the start and end dates below.

Modules start on a Friday, and finish on a Thursday – with volunteers ideally arriving into Fort Dauphin on the Friday.

January – March Team: 7th January to 17th March		
Dates	Modules Running	
7 th January – 20 th January	Lemur & Biodiversity Research	
21 st January – 3 rd February	Lemur & Biodiversity Research	Community Conservation
